Larger than his previous exhibit at Harvard, Xiomáro, a highly published and exhibited artist who featured in AR's second edition, is exhibiting once again in October 2015.

[Theodore Roosevelt's "Unseen" Summer White House: A Fine Art Photographic Exhibit](#) at Theodore Roosevelt Executive and Legislative Building, Mineola, Long Island, October 13-23, 2015.

Over 40 large color photographs, created by Long Island artist Xiomáro, will be on display at the historic Theodore Roosevelt Executive and Legislative Building in Mineola, Long Island, October 13-23, 2015. The exhibit, Theodore Roosevelt's Sagamore Hill: The "Unseen" Summer White House, shows the interiors in a historically rare condition: the 23 rooms of the Oyster Bay home where TR conducted the nation's business are virtually empty of their massive contents. The public is invited to a free opening reception on October 13 at 6:00 pm. and to download a free photo e-Book at www.xiomaro.com.

Apart from these images, the public will never see the interiors in this state. [Read more...](#)
