Register Below To celebrate the new photography and history book, Weir Farm National Historic Site (Arcadia Publishing), its author Xiomaro will be presenting an illustrated talk and book signing on Saturday, July 27, 3:00 pm. Xiomaro, visiting artist at Weir Farm, will show us the stunning transformation the farm has undergone and the landscapes where countless of Julian Alden Weir's masterpieces were inspired. He will also share an overview of his work – which ranges from National Parks to street photography. This event will conclude the library's exhibit of a select number of his fine art photographs that are featured in the book. An Audience drawing will take place and the lucky winner will take home one of the author's autographed Weir Farm prints. Books will be available for purchase at a discount.
