ABOUT THE TRAIL

Xiomáro - Xio (*see-oh*) is a nationally recognized artist, curator, writer, and speaker, and the newest addition to the NET Artists on the Trail! He has completed several commissions for the National Park Service, including African Burial Ground NM, Big Cypress NR, and Weir Farm NHS. He will be photographing the NET in both Massachusetts and Connecticut. "I'm excited by the challenge of working on my first national scenic trail," said Xio, "and eager to learn about the New England Trail's landscapes, natural and cultural history, the communities it touches, and the amazing volunteers who care for this treasure of a trail." Keep an eye out for Xio and his camera on the NET, and email info@newenglandtrail.org for more information on the ongoing project.
